Report of Superintendent of Schools

To the School Board of New Castle:

I herewith present my eighteenth report as Superintendent of your schools. The statistical reports included are those of the past completed school year with the exception of the pupil enrollment and the list of tuition pupils in the Portsmouth schools. These latter are for the current school year.

The present year began on Monday, September 8, 1947, with an enrollment of 36 pupils. This compares with last year's September registration of 35. New Castle continues in the list of schools having a percentage of attendance of over 90%. In fact, the figure is 97.03. This vouches for the interest parents and pupils in the work of the school. The actual days on which schools kept or educational institutes were held was 174. Since this number must be 180 for the year 1948-49, a revision of the school calendar will be necessary. The increased number of days is in line with the purpose of improved service to our children.

Mrs. Thompson and Mrs. Woodeson remain as teachers this year. Both teachers are constantly checking their progress with that of the corresponding grades in Portsmouth. Since our pupils will later attend the Portsmouth schools such checking results in shortening the period of adjustment for our graduates when they attend the Junior High School.

The State Board of Education believes that teachers may secure valuable training while in service. It is offering education workshops for elementary teachers under the direction of expert supervisors working in the department. In line with this plan, Supervisory

Union 21 operated a citizenship workshop in Hampton on January 21, 22, and 23. This year, the content and methods of teaching in art and music, youth activities, and the social subjects were studied. This is a progressive step and one deeply appreciated by the teachers.

A meeting of all teachers in the Union was held on January 15. Here the particular problems of the seven towns were discussed among the teachers themselves. Also, Mr. Hagerstrom of Portsmouth Junior High School, spoke of the problem of adjustment to larger schools which children of smaller schools must face. His suggestions for meeting these difficulties should prove of value to our pupils.

I wish to repeat the two recommendations of the previous report because I believe both are for the good of our children. Modern education demands adequate playground facilities. The lessons of the playground are many and valuable. The entire interrelation of pupil with pupil may be altered by the right kind of play ground activity. Cannot something be done to give our children the opportunity to benefit from this accepted school responsibility?

New Castle should take its place in the forefront of the New Hampshire schools who are now increasing interest in Art work. Art develops a side of the children's abilities which can be reached in no other way. Art as taught in the public schools does not have for its primary purpose the development of skilled artists of crayon or paint. It teaches the pupils the practice of real observation, a guiding of imagination and the pleasure of reproducing what they see. Surely this is education for living.

Since the cost of education must advance, the legislature of New Hampshire felt that the increased cost must come from a larger unit than the individual town.

For this reason the new education bill allotted two million dollars to the schools, this money to be used to help meet the increased funds needed. New Castle, for the first time benefitted from state aid. A check for \$920.64 has been received by the school treasurer. This money will help meet larger tuition fees, increased administration expense, and higher cost of books and supplies. It also enables us to meet the state minimum salary for our teachers.

Through the federal lunch program the children of the nation's schools may receive lunches at reduced cost because of the government contribution. Since the children of New Castle go home to dinner a full lunch program is not feasible. There is, however, the possibility of receiving milk for each child with a federal subsidy of two cents per bottle.

New Castle now has an interested ally in a local Parent-Teacher Association. This organization forms a body which has for its purpose the welfare of the children of the community both in school and outside. It is a part of the only national organization with such an objective. I feel certain the whole community will benefit by its activities.

The New Castle School Board has improved the school plant considerably during the past two years. Heating, lighting and sanitation have kept pace with modern installations. It is our purpose to keep the scholarship on the basis set by the care for the physical plant. Without an interested board, schools suffer. New Castle has an interested board. For this interest and its help to me, I wish to express my thanks and appreciation.

Respectfully submitted,

ROY W. GILLMORE,

January 29, 1948.

Superintendent of Schools.

Summary of Receipts and Expenditures: (Exhibit E)

A summary of receipts and expenditures for the fiscal year ended December 31, 1946, made up in accordance with the uniform classification of accounts is included in Exhibit E.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Proof of the Treasurer's balance as of May 31, 1947, is indicated in Exhibit H.

TAX ACCOUNTS

The accounts of Wayne D. Poole, Tax Collector, were audited for the period beginning September 10, 1943, (date of the previous audit by this Division) and ending June 10, 1947. This included an examination of the tax warrants for the years 1941, 1942, 1943, 1944, 1945 and 1946. Summary statements indicating the activity in these accounts during the period covered by our audit are included in Exhibits J, K, L, M, N and O. Supporting schedules showing in detail the lists of uncollected taxes for each year's levy as of the date of audit, as well as detailed lists of abatements are also included.

New tax warrants for the uncollected balances which are to be committed to the new tax collector should be prepared from the lists as included herewith, after consideration has been given to the matter of any further abatements to be made before the new warrants are made out.

TOWN CLERK

The financial accounts and records of the Town Clerk were examined and audited. All funds received by the Town Clerk on account of the issuance of motor vehicle permits and dog licenses were properly accounted for through remittances to the Treasurer or cash on hand. (Exhibits F and I)

TRUST FUNDS

The records of the Trustees of Trust Funds for the fiscal year ended December 31, 1946, were examined. Principal and unexpended income as shown by the trust fund records was accounted for by the inspection of the various savings bank books covering the individual funds.

WATER DEPARTMENT

Examination was made of the accounts of the Treasurer of the Water Department. The balance on hand, as of May 31st, 1947, as indicated by the Treasurer's cash book, was in agreement with the balance on deposit in the First National Bank of Portsmouth as verified. In addition the funds on deposit in the Piscataqua Savings Bank and the Portsmouth Savings Bank were accounted for by inspection of pass books.

The accounts receivable, as of the date of audit amounted to \$445.08, as indicated in Exhibit Q.

GENERAL COMMENTS

Capital Reserve Fund:

As indicated by the Balance Sheet of December 31, 1946, the amount appropriated for the Capital Reserve Fund, which is shown as a liability, was \$4,046.27. Of this amount, however, only \$3,246.27, which is shown as an asset item, had been turned over to the custody of the Trustees of Trust Funds. The balance of \$800.00, which was appropriated for the Capital Reserve Fund, should be transferred from the general funds of the town to the Trustees of Trust Funds.

Conclusion:

With exceptions as herein noted the accounts of all town officials were found in good condition and the accounting procedure conformed to the uniform system prescribed by this Division.

In accordance with the provisions of Section 31, Chapter 211, of the Laws of 1939, this report or a summary of its essential features should be published in the next annual town report. This letter of transmittal should be included in its entirety but the inclusion of exhibits is optional.

We extend our thanks to the officials of the Town of New Castle for the assistance rendered and information furnished while we were engaged in making this audit.

Yours very truly,

HAROLD G. FOWLER, Director,
Division of Municipal Accounting
State Tax Commission

Herbert E. Hunt, Auditor
Robert Ford, Accountant
